UNIVERSITY OF CALIFORNIA, SCRIPPS INSTITUTION OF OCEANOGRAPHY
NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, NATIONAL MARINE FISHERIES SERVICE
CONTENTS

I. Reports, Review, and Publications
   Report of the CalCOFI Committee ................................................................. 5
   Review of Some California Fisheries for 1991 .............................................. 7
   Publications ................................................................................................. 21

II. Symposium of the CalCOFI Conference, 1991
   A DECADE OF RECOVERY OF THE PACIFIC SARDINE
   Reconstruction of the History of Pacific Sardine and Northern Anchovy Populations over the Past Two Millennia from Sediments of the Santa Barbara Basin, California. Tim R. Baumgartner, Andy Soutar, and Vicente Ferreira-Bartrina .......................................................... 24
   Life-Stage Duration and Survival Parameters As Related to Interdecadal Population Variability in Pacific Sardine. Paul E. Smith, N. Chyan-huei Lo, and John L. Butler ..................................................... 41
   The Recovery of the California Sardine As Related to Global Change. Daniel Lluch-Belda, Sergio Hernández-Vázquez, Daniel B. Lluch-Cota, César A. Salinas-Zavala, and Richard A. Schwartzlose ................................................................. 50
   Recovery of the Pacific Sardine and the California Sardine Fishery. Patricia Wolf ......................................................... 76

III. Scientific Contributions
   Spatial and Temporal Distributions of Pacific Hake, Merluccius productus, Larvae and Estimates of Survival during Early Life Stages. Anne Babcock Hollowed ..................................................... 100
   Spawning Frequency and Batch Fecundity of Chub Mackerel, Scomber japonicus, during 1985. Terri L. Dickerson, Beverly J. Macewicz, and J. Roe Hunter ..................................................... 130
   Neustonic Ichthyoplankton in the Northern Region of the California Current Ecosystem. Miriam J. Doyle ..................................................... 141
   Growth and Larval Development of Nyctiphanes simplex in Laboratory Conditions. Berth E. Lavaniegos E ..................................................... 162

Instructions to Authors .................................................................................. 172
CalCOFI Basic Station Plan .............................................................................. inside back cover

Indexed in Current Contents. Abstracted in Aquatic Sciences and Fisheries Abstracts and Oceanic Abstracts.
