CALIFORNIA COOPERATIVE OCEANIC FISHERIES INVESTIGATIONS

Reports
VOLUME 35
January 1 to December 31, 1993

Cooperating Agencies:

CALIFORNIA DEPARTMENT OF FISH AND GAME
UNIVERSITY OF CALIFORNIA, SCRIPPS INSTITUTION OF OCEANOGRAPHY
NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, NATIONAL MARINE FISHERIES SERVICE
## CONTENTS

### I. Reports, Review, and Publications

<table>

**Publications** .................................................................................................................. 40

### II. Symposium of the CalCOFI Conference, 1993

**GENETICS OF THE FAUNA OF THE CALIFORNIA CURRENT** .................................................... 43

- Molecular Genetic Variation of *Calanus pacificus* (Copepoda: Calanoida): Preliminary Evaluation of Genetic Structure and Subspecific Differentiation Based on mtDNA Sequences. Ann Bucklin and Todd C. Lajeunesse ........................................ 45

**Infering the Genetic Structure of Marine Populations: A Case Study Comparing Allozyme and DNA Sequence Data. Ronald S. Burton.** ........................................ 52

- Intraspecific Structure of the Northern Right Whale Dolphin (*Lissodelphis borealis*): The Power of an Analysis of Molecular Variation for Differentiating Genetic Stocks. Andrew E. Dizon, Carrie A. LeDuc, and R. Gene LeDuc ........................................ 61

**Temporal and Spatial Genetic Structure of Marine Animal Populations in the California Current. Dennis Hedgecock.** ........................................ 73

**Phylogeographic Patterns in California Steelhead as Determined by mtDNA and Microsatellite Analyses. J. L. Nielsen, C. Gau, J. M. Wright, and W. K. Thomas.** ........................................ 90

### III. Scientific Contributions

**Distribution of Eggs and Larvae from Sardine and Anchovy off California and Baja California, 1951–1989. Sergio Hernández-Vázquez.** ........................................ 94

- Variation in Life History and Morphology in Northern Anchovies (*Engraulis mordax*). Keith Nelson, Elmarie S. Hutchinson, Gang Li, Frederic L. Sly, and Dennis Hedgecock. ........................................ 108

- Seabirds as Indicators of Important Fish Populations in the Gulf of California. Enriqueta Velaunde, Maria de la Soledad Tordesillas, Leticia Vieyra, and Rocio Esquivel. ........................................ 137

**Fecundity of Sablefish, *Anoplopoma fimbria*, from Oregon Coastal Waters. Beverly J. Macewicz and J. Roe Hunter.** ........................................ 160

**The Distribution of Pelagic Juvenile Rockfish of the Genus *Sebastes* in the Upwelling Region off Central California. Ralph J. Larson, William H. Lenarz, and Stephen Ralston.** ........................................ 175

**Comparison of Cross-Shelf Trends in Acoustic Doppler Current Profiler Amplitude and Zooplankton Displacement Volume in Southern California. Michele L. G. Lyons, Paul E. Smith, and H. Geoffrey Moser.** ........................................ 240

**Level of Significance and Power of Two Commonly Used Procedures for Comparing Mean Values Based on Confidence Intervals. Nancy C. H. Lo.** ........................................ 246

### IV. Index to CalCOFI Reports 1989–1993

- Author Index........................................................................................................................... 255
- Subject Index.......................................................................................................................... 257
- Instructions to Authors.......................................................................................................... 260
- CalCOFI Basic Station Plan ................................................................................................. inside back cover

Indexed in *Current Contents*. Abstracted in *Aquatic Sciences and Fisheries Abstracts* and *Oceanic Abstracts*.
